

INTERNATIONAL SESSION

The 28th Annual Conference of JSMCWM
September 6-8, 2016 / Tokyo Institute of Technology, Tokyo

CALL FOR PAPERS

Introduction:

Japan Society of Material Cycles and Waste Management (JSMCWM), which was established in Japan in 1990, is a general incorporated association that aims to organize Japanese professionals who are experienced in the various fields of waste management. JSMCWM holds a research conference annually for its members to present research papers (in Japanese). An international session (in English) also has been held as part of the annual conference since 1997 in cooperation with the Korea Society of Waste Management (KSWM) based on the agreement between the two societies.

The International Session provides opportunities for overseas researchers as well as non-Japanese-speaking researchers from inside and outside Japan to present their research papers and exchange information. Each year we have 30-40 submitted papers and they are presented and discussed comprehensively. The primary author must be a member of JSMCWM or KSWM.

We look forward to receiving your paper submissions and hope to see you this year in Tokyo.

Date & Venue:

September 6-8, 2017
Tokyo Institute of Technology
2-12-1 Ookayama, Meguro-ku, Tokyo 152-8550 Japan

Presentation:

Hybrid poster presentation (90 seconds oral presentation + regular poster presentation)
