Paradigm shift towards Sustainability

*An interdisciplinary discussion on globally critical
issues on waste management*

Oct 25th (Mon) 15:30 – 17:30 (Japanese time)
Online (Zoom)

Our society is brimming with keywords such as corona, aging, SDGs, decarbonization, and informatization which indicate that the social system, lifestyle, and value systems are about to change drastically. Under such circumstances, what kind of issues will the waste and resource circulation field face, and what kind of possibilities and opportunities can be utilized to contribute to a sustainable society? With this theme in mind, we would like to invite speakers from all over the world to introduce their topics of interest and have a fruitful discussion.

Chair

Dr. Yasuhiko Hotta, IGES & JSMCWM (Japan)

Speakers and topics

Mr. Seung-Whee Rhee,
Professor of Department of Environmental Engineering, Kyonggi University Korea
